Work Experience

SD Intern — Decision Point Pvt. Ltd.

February 2026 — Present

- Built responsive UI components using **React.js** and **Material UI (MUI)**, improving user experience and interface consistency.
- Integrated **REST APIs** using **Redux Toolkit**, enabling efficient state management and seamless data flow.
- Developed an autonomous **Databricks Genie AI** skill that dynamically generates adaptive **PySpark** to execute a 7-stage data profiling, quality, and correlation engine.

SDE Intern — Samsung R&D Institute Delhi

January 2025 — July 2025

- Researched advanced techniques for **AI-driven web crawling** and automated text summarization, helping reduce manual effort by around 70%.
- Gained hands-on experience with **Spring Boot 3**, and designed and deployed cloud infrastructure using **AWS CDK**, provisioning over 10 AWS resources for reliable deployments.
- Built **CI/CD pipelines** for 5 microservices using **Jenkins**, automating builds, containerization, and deployments to **AWS ECS**, which helped reduce release time by 40% and significantly improved deployment frequency.

Education

Indian Institute of Information Technology Bhopal, India

December 2021 - June 2025

Bachelor of Technology in Computer Science and Engineering

CGPA: 9.16

Projects

Bookish Bliss | *MongoDB, Express JS, ReactJS, NodeJS, Redux, SCSS, RESTful API, Font Awesome, Bootstrap* [Github](#)

- Built a responsive web application from scratch using **React**, **Node.js**, and **MongoDB**, efficiently managing a live catalog of over **4,600+ books** with seamless cart, checkout, and order history flows.
- Engineered a **Collaborative Filtering** algorithm to generate personalized book suggestions from implicit user feedback, and integrated a dedicated **"Request a Book"** portal for users to easily source unavailable titles.
- Secured 100% of user data using **bcrypt hashing** and **HttpOnly JWT cookies**, while drastically boosting application speed by implementing **Redux Toolkit Query** for advanced frontend API caching.

Starlight Airport Management System | *EJS, NodeJS, ExpressJS, Restful API, MySQL, Font Awesome*

[Github](#)

- Built an admin-based airport management system handling 50+ daily flights and 100+ passenger records using **NodeJS**, **EJS**, and **MySQL**.
- Optimized **30+ SQL queries** and collaborated in a 3-member team to deliver a reliable, fully functional platform within 2 weeks.

Technical Skills

Languages: C++, Java, Python, HTML, CSS, JavaScript, TypeScript, SQL

Frameworks: NodeJS, ExpressJS, NextJS, Spring Boot

Libraries and Databases: ReactJS, MySQL, MongoDB

Developer Tools: Github, Amazon Web Services (AWS), VS Code, Postman, Jenkins

Soft Skills: Leadership, Team Management, Interpersonal and Intrapersonal Skills

Certificates and Achievements

- **3 Star Coder at CodeChef** (highest rating - 1794) [Link](#)
- **Specialist at Codeforces** (highest rating - 1517) [Link](#)
- **Knight on LeetCode** (highest rating - 1935) [Link](#)
- **The Web Developer Bootcamp 2024 – Colt Steele (Udemy) – March 2024** [Certificate](#)
- **Jenkins: Jobs, Pipelines, CI/CD and DevOps – Valentin Despa (Udemy) – May 2025** [Certificate](#)
